Sounds good. Do you want me to send this note to Mike O now?

Leo

Leo and Jack,

Connie, Chuck Kelso, David and I had a check in call this morning to discuss the status of the various documents we are working on. David and the field have been working fast and furious and we believe we should stay with the 7th for the briefing date to avoid schedule slippage. In order to do that here is what would have to happen.

Tomorrow: Mike would need to send an email to the DOI EIS Review Team requesting the briefing for the 7th, with a backup date of the 14th (in the event the 7th is booked). There are new format and procedural requirements for this email request, which we are working on now. FYI this briefing

request now must contain a link to the dEIS, which we expect to have ready by tomorrow.

Friday: One week ahead deadline for submission of materials. We would need to submit additional items or review. This would include:

- revised HCP
- Powerpoint briefing (attached)
- Notice of Availability
- Solicitor surname on the EIS, NOA, and HCP

Vicki has assured us she will secure the surnames.

Next week, leading up to the briefing, we would have to brief Jim Kurth (unless Mike has already done this) and we would finalize our internal briefing documents (Q&As, fact sheet), preparing for the briefing.

I want to acknowledge the Herculean efforts of everyone involved in this, but especially Connie, David, and Chuck.

Please let me know your thoughts. Thanks. Rob
